**Course Description:** Overview of Agricultural techniques of fabrication and construction related to

engines, machinery, structures, electricity, processing, and conservation

applications.

**TEXTS:** "The Visual Handbook of Building and Remodeling" by Charles Wing. Third Edition. The

Taunton Press, 63 South Main Street, PO Box 5506, Newtown, CT 06470-5506.

"Farm and Workshop Welding" by Andrew Pearce. First Edition. Fox Chapel Publishing,

FoxChapelPublishing.com

### **COURSE OBJECTIVES:**

- 1. To develop and introduce new ideas in the many study areas in Agricultural Systems Management.
- 2. To develop and introduce new terminology in the many study areas in Agricultural Systems Management.
- 3. To solve basic, applied, and practical problems in Agricultural Systems Management.
- 4. To provide a tactile opportunity to practice skills in an agricultural shop system.

REQUIRED RESOURCES: Text book, non-spiral letter size paper for homework, pencil, eraser, basic calculator. (For Lab) Personal protection equipment consisting of long pants, closed toed shoes, and safety glasses. Safety glasses will be worn at all times in the shop/lab. No

exceptions!

**BLACKBOARD:** Blackboard will be used for announcements, class presentations, assignments, and temporary grades presentation

# **GRADING**

<u>Items</u>		<b>Total Points</b>
Tests	(Four tests, 100 pts each)	400
Lab work	(10 Lab projects, 10 points each)	100
Unannounced quizzes	(2 quizzes, once in every 8 weeks, 15 pts each)	30

Total pts: 530

All the home works and quizzes must be submitted in time. The due date for homework will be announced when the home work is given. No late submissions are accepted.

(There may be extra credits for students in addition to the formal grading. So the total grade points can be more than 530).

Grading will be on the straight system: A=100-90%, B=89-80%, C=79-70%, D=69-60%, F=59%

The students are encouraged to work lab problems sets together. Working together can be a good learning experience. But the solution and submission of home work and lab problem sets should be individual. There will be two unannounced quizzes, once in each eight weeks, either at the beginning or end of the class.

#### **MISSING EXAMS**

The exam dates are set at the beginning of the semester. All other extracurricular activities should not be scheduled on these dates. If for some <u>emergency reasons</u>, someone misses an exam, the instructor <u>must</u> be notified <u>BEFORE</u> the exam is given. Notification by e-mail or other written formats are acceptable. Missing an exam without notifying the instructor <u>BEFORE</u> the exam date will result in a <u>"0"</u> for that exam - no exceptions!

## MISSING HOMEWORK ASSIGNMENTS

Homework is an important learning tool and assessment for you. It helps to understand the concepts discussed in class and it helps to develop good problem solving skills, which will be important in later courses and in professional life. You are expected to complete all homework assignments and hand them in for grading on time. Homework will be collected at the beginning of class. **No late submissions of Homework are accepted.** 

#### **MISSING QUIZZES**

Quizzes <u>cannot</u> be made up. For legitimate emergency, contact me before the class and allowance can be made. If you miss a quiz, your score for the quiz is <u>"0"</u>. Quizzes will be unannounced and will be given for one or more of the following reasons:

- 1. To see if the class understands some of the concepts.
- 2. To encourage response to questions in the form of quiz.
- 3. To encourage class attendance.

If you are unable to attend the class, let the instructor know ahead of time by e-mail or other written formats. In this case, the instructor will not have unannounced quiz.

### **MISSING CLASSES**

You are expected to attend all class periods but there is no roll-call. If a class is missed, contact the instructor or class mates for notes. The PowerPoint presentations will be posted in the blackboard.

# **IMPORTANT NOTIFICATION**

Academic Honesty: All students taking any course in the College of Agriculture, Food Systems, and Natural Resources are under the Honor System (<a href="http://www.ag.ndsu.edu/academics/honor-system-1">http://www.ag.ndsu.edu/academics/honor-system-1</a>). The Honor System is a system that is governed by the students and operates on the premise that most students are honest and work best when their honesty, and the honesty of others, is not in question. It functions to prevent cheating as well as penalize those who are dishonest. It is the responsibility of the students to report any violations of the honor pledge to the instructor, honor commission or the Dean of the College of Agriculture, Food Systems, and Natural Resources.

The academic community is operated on the basis of honesty, integrity, and fair play. NDSU Policy 335: Code of Academic Responsibility and Conduct applies to cases in which cheating, plagiarism, or other academic misconduct have occurred in an instructional context. Students found guilty of academic misconduct are subject to penalties, up to and possibly including suspension and/or expulsion. Student academic misconduct records are maintained by the Office of Registration and Records. Informational resources about academic honesty for students and instructional staff members can be found at www.ndsu.edu/academichonesty.

Students with special requirements: Any students with disabilities or other special needs, who need special accommodations in this course are invited to share these concerns or requests with the instructor as soon as possible. The instructor may ask for verification and that, plus other assistance, can be requested from Disability Services in Wallman Wellness Center 170 (231-8463). <a href="http://www.ndsu.edu/disabilityservices/">http://www.ndsu.edu/disabilityservices/</a>. <a href="https://www.ndsu.edu/disabilityservices/">Veterans and military personnel</a>: Veterans or military personnel with special circumstances or who are activated are encouraged to notify the instructor as early as possible.

# Syllabus Statements on Masking

Currently (or at the time of writing this syllabus or as of August 9, 2021), NDSU is strongly recommending that all people wear masks in indoor spaces when social distancing cannot be maintained. Further, faculty may require masks to be worn in their classes at their discretion. In case of any changes, you will be notified and this syllabus will be updated. Consistent with NDSU's recommendations, in this class all participants, including those who are fully vaccinated, are required to wear a face covering. If you fail to properly wear a face covering, you will not be admitted to the classroom. Given the changing conditions associated with the pandemic, this class' faculty member has reserved the right to modify the mask status of the class during the semester. The following will be used as needed: referral to Dean of Students Office or administrative removal from class.

- Students who cannot wear a face covering due to a medical condition or disability, or who
  are unable to remove a mask without assistance may seek an accommodation through the
  Disability Services (701-231-8463; <a href="https://www.ndsu.edu/disabilityservices/">https://www.ndsu.edu/disabilityservices/</a>).
- In accordance with NDSU Policy 601, failure to comply with instructions, including the mask requirement, may be handled according to the Code of Student Conduct resolution process and may result in disciplinary sanctions.
