Course Description: Overview of engines and power units. Understanding what makes a system function on an engine increases the ability to diagnose, understand, and fix problems in that system.

TEXT: "Engine and Tractor Power", Goering, 4th edition 2004

COURSE OBJECTIVES:

1. To develop an introductory understanding of engines and their systems.
2. To develop good problem solving skills and to learn to look for alternative solutions to problems.
3. To solve basic, applied, and practical problems on tractors and power units.
4. To provide an introduction to higher level thinking and problem solving in engines.

REQUIRED RESOURCES: Text book, non-spiral letter size paper for homework, pencil, eraser, basic calculator, and safety glasses.

BLACKBOARD: Blackboard will be used for announcements, class presentations, assignments, and temporary grades presentation

GRADING

<u>Items</u>		Total Points
Demonstrations	(100 pts)	100
Quizzes	(5 quizzes, 20 pts each)	100
Unannounced quizzes	(2 per semester, 1 in each 8 weeks, 10 points each)	20
		Total pts: 220

All the demonstrations and quizzes must be submitted on time. No late submissions are accepted. Demonstrations will consist of a (10+2) minute demonstration of any engine principle, test equipment/tool, or engine accessory.

(There may be extra credits for students in addition to the formal grading. So the total grade points can be more than 200).

The cut off for letter grades: 100-90% = A; 89-80% = B; 79-70% = C; 69-60% = D; 59% = F

If you are unable to attend the class, let the instructor know ahead of time by e-mail or other written formats. In this case, the instructor will not have unannounced quiz.

MISSING LABS

You are expected to attend all lab periods, but there is no roll-call. If a lab is missed, contact the instructor or class mates for notes. This is a "hands on lab" so you will not be able to make up what you missed. Quizzes and demonstrations will be given during lab times!

IMPORTANT NOTIFICATION

Academic Honesty

The academic community is operated on the basis of honesty, integrity, and fair play. [NDSU Policy 335: Code of Academic Responsibility and Conduct](#) applies to cases in which cheating, plagiarism, or other academic misconduct have occurred in an instructional context.
