Project 1: Garment That Hangs from The Waist

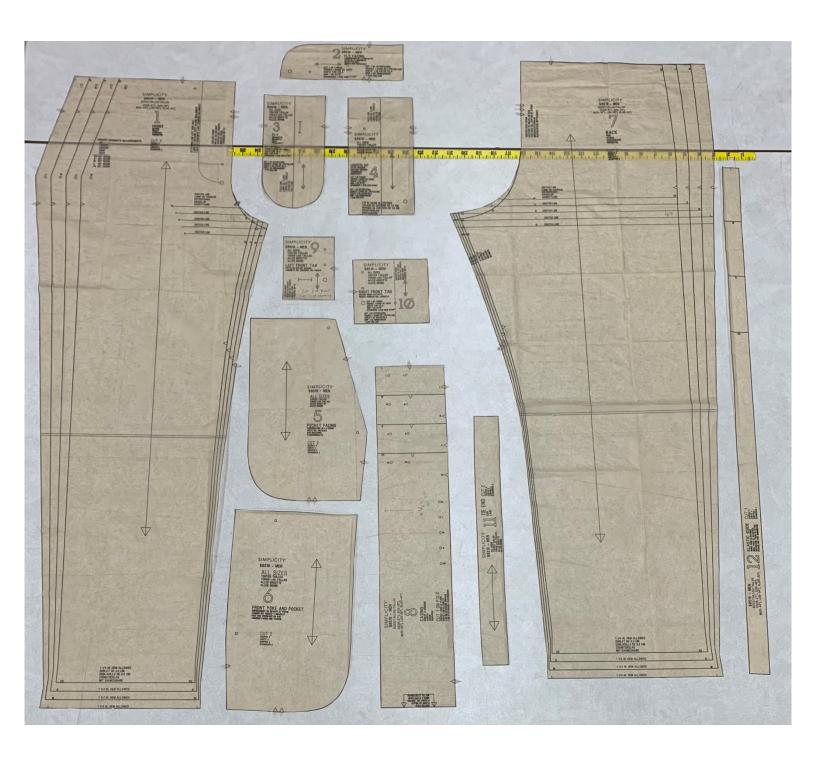

Inspiration

<u>Pattern</u>

Test Fabric with Muslin

Adjusting Fit

- I took in the side seams 1 inch on both the front and back to allow for a closer fitting garment.
- I tapered the legs from the bottom of the thing down through the knee and calf to the ankle.
- I added an additional 4 inches to the length of the leg to create my desired drapey fit.

Construction Designs

1. Elastic waistband

2. Side pockets

3. Button fly

4. Crotch seam

5. Inseam

6. Side seam

7. Elastic cuffs

ADHM 155: Apparel Construction & Fit

8. Serged edges on pieces

Fabric swatch

Challenges faced

- Got the wrong size of elastic, so had to compensate for it by adjusting my waistband.
- Having to redo small parts of the waistband hem that didn't catch underneath while sewing.
- Adding ribbon tape to the fly after a trimming mishap

Final Garment
