

Mykah Solomon

Summer 2020 I worked as a style team member at Target in Crystal, MN. I do many basic retail tasks like zoning and reorganizing apparel and accessories sections. I make sure that items are folded, hung and organized by brand, style, size and color and do light visual merchandising work like rearranging and setting up fixtures when necessary. I've learned more about creating attractive displays working directly with my store's visual merchandiser. This position has provided great insight into the retail merchandising industry and I feel more encouraged to gain more experience for a position as a visual merchandiser.
