

Title

Addressing Social Determinants of Health in Pharmacy Practice

Course Description:

Pharmacists and pharmacy technicians play a crucial role in healthcare, not just in dispensing medications but also in understanding and addressing the broader social determinants of health (SDOH) that affect patients. Recognizing factors such as socioeconomic status, education level, access to healthcare, and cultural background is essential for providing patient-centered care and optimizing health outcomes. By comprehending these SDOH, pharmacists and technicians can tailor their services, counseling, and interventions to meet the unique needs of each patient, thereby enhancing medication adherence, promoting preventive care, and mitigating disparities in healthcare access and outcomes. Their awareness of SDOH empowers them to serve as advocates for patients, connecting them with community resources, offering support, and provide equitable care.

Date

05/23/2024

Time

12:00pm-1:00pm CST

Location

Fargo, ND

Learning Objectives:

Upon successful completion of this application-based course pharmacists should be able to:

1. Explain SDOH's influence on health and quality of life.
2. Examine strategies for pharmacists to identify and address SDOH.
3. Analyze available SDOH resources in North Dakota.
4. Devise a patient-centered plan addressing challenges, enhancing wellness, and optimizing health.

Upon successful completion of this application-based course pharmacy technicians should be able to:

1. Explain SDOH's influence on health and quality of life.
2. Examine strategies for pharmacy technicians to identify and address SDOH.
3. Analyze available SDOH resources in North Dakota.
4. Devise a patient-centered plan addressing challenges, enhancing wellness, and optimizing health.

Faculty:

Rebecca Leon, PharmD, APh

Assistant Clinical Professor, Program Pharmacist

University of California San Francisco School of Pharmacy

Faculty Disclosures:

Rebecca Leon has no relevant financial relationships with ineligible companies to disclose.

Off-label use of medications will not be discussed during this presentation.
