*Lilly*  
POLITICAL  
CONTRIBUTIONS

**Government actions** such as price controls, pharmaceutical manufacturer rebates, the Prescription Drug User Fee Act (PDUFA), and access to Lilly medicines affect our ability to invest in innovation. Lilly has a comprehensive government relations operation to have a voice in the public policymaking process at both the state and federal levels. Lilly is committed to participating in the political process as a responsible corporate citizen to help inform the U.S. debate over health care and pharmaceutical innovation. As a company that operates in a highly competitive and regulated industry, Lilly must participate in the political process to fulfill its fiduciary responsibility to its shareholders, and its overall responsibilities to its customers and its employees.

### **Corporate Political Contribution**

Elected officials, no matter what level, have an impact on public policy issues affecting Lilly. We are committed to backing candidates who support public policies that contribute to pharmaceutical innovation and healthy patients. A number of factors are considered when reviewing candidates for support. The following evaluation criteria are used to allocate political contributions:

- Has the candidate historically voted or announced positions on issues of importance to Lilly, such as pharmaceutical innovation and health care?
- Has the candidate demonstrated leadership on key committees of importance to our business?
- Does the candidate demonstrate potential for legislative leadership?
- Is the candidate dedicated to improving the relationship between business and government?
- Does the candidate represent a state or district where Lilly operates a facility or has a large concentration of employees or retirees?
- Would Lilly support have an impact on his or her campaign?

It is against company policy for any company funds, property, or employee services to be used or authorized to support any candidate for political office, political party, official, or committee unless the support is permitted by law and approved by the appropriate company representatives. Lilly corporate political contributions are made in accordance with a budget for company political contributions. This budget is determined annually and allocated by state. Throughout the year, members of the company's government affairs organization bring forward specific recommendations for company political contributions. The Chief Financial Officer or his designee and General Counsel of the company or his designee must approve U.S. corporate political contributions before they are made. The government affairs group manages the process for delivery of contributions so approved.

## LillyPAC Contributions

In addition to corporate political contributions, Lilly also enables voluntary eligible employee participation by sponsoring a Political Action Committee – LillyPAC. The LillyPAC Governing Board (the Board) oversees all contributions made by LillyPAC. The Board is comprised of 13 U.S.-based employees who represent components throughout the company.

LillyPAC contributions are made in accordance with a budget, which is determined annually by the Board. The Board utilizes the same corporate contribution criteria outlined above for determining LillyPAC contributions. LillyPAC support is divided between federal and state candidates. Throughout the year, members of the company's government affairs organization and employee LillyPAC members may bring forward specific recommendations for LillyPAC contributions. LillyPAC contributions are not required to be approved separately by the Chief Financial Officer or General Counsel of Lilly.

LillyPAC is funded by voluntary contributions from eligible employees. All disclosure requirements are met that apply to LillyPAC. LillyPAC contribution data are available to the public on the Federal Election Committee (FEC) website ([www.fec.gov](http://www.fec.gov)), through the individual states' agencies, and on the Lilly website at [www.lilly.com](http://www.lilly.com).

## Social Media

Lilly has created a blog called LillyPAD ([www.lillypad.lilly.com](http://www.lillypad.lilly.com)). LillyPAD was created to begin a dialogue with the public on matters that are important to Lilly and those following the biopharmaceutical industry. LillyPAD focuses on public policy issues, corporate responsibility

initiatives, advocacy efforts, and the important work conducted by Lilly employees every day to make the world a healthier place to live. LillyPAD creates the opportunity for two-way conversations.

Lilly also founded The Campaign for Modern Medicines ([www.modernmedicines.com](http://www.modernmedicines.com)). The Campaign for Modern Medicines believes that patients deserve timely access to breakthrough medicines and that the U.S. should be the global leader in discovering and delivering these new lifesaving cures and treatments. The Campaign for Modern Medicines is an organization of like-minded individuals, advocacy organizations, and businesses who advocate to policymakers in support of issues that promote these goals.

## Memberships

In addition to direct political contributions, Lilly also maintains memberships in organizations that report lobbying activity to the U.S. federal government. Lilly is committed to supporting organizations that champion medical innovation. Lilly contributed \$50,000 or more per year to the following organizations in 2011. Organizations where the company has a board seat are noted to reflect the greater degree of involvement in setting priorities for those organizations.

### Memberships in 2011 include:

## Public Policy

As a biopharmaceutical company that treats serious diseases, Lilly plays an important role in public health and its related policy debates. It is important that our company shapes global public policy debates on issues specific to the people we serve and to our other key stakeholders including shareholders and employees. Our engagement in the political arena helps address the most pressing issues related to ensuring that patients have access to needed medications—leading to improved patient outcomes. Through public policy engagement, we provide a way for all of our locations globally to shape the public policy environment in a manner that supports access to innovative medicines. We engage on issues specific to local business environments (corporate tax, for example).

Based on our company's strategy and the most recent trends in the policy environment, our company has decided to focus on three key areas: innovation, health care delivery, and pricing and reimbursement. More detailed information on key issues can be found in our 2011/12 Corporate Responsibility update:

[http://www.lilly.com/Documents/Lilly\\_2011\\_2012\\_CRupdate.pdf](http://www.lilly.com/Documents/Lilly_2011_2012_CRupdate.pdf)

Through our policy research, development, and stakeholder dialogue activities, Lilly develops positions and advocates on these key issues.

## U.S. Political Engagement

Government actions such as price controls, pharmaceutical manufacturer rebates, and access to Lilly medicines affect our ability to invest in innovation. Lilly has a comprehensive government relations operation to have a voice in the public policymaking process at the federal, state, and local levels. Lilly is committed to participating in the political process as a responsible corporate citizen to help inform the U.S. debate over health care and pharmaceutical innovation. As a company that operates in a highly competitive and regulated industry, Lilly must participate in the political process to fulfill its fiduciary responsibility to its shareholders, and its overall responsibilities to its customers and its employees.

When engaging in lobbying efforts or making political contributions, we comply with the laws that govern such activities. All financial support and lobbying activity are overseen at the Board level by the Public Policy and Compliance Committee (PPCC), which is composed entirely of outside directors. The PPCC members receive a copy of the "Lilly Report of Political Financial Support" annually and a detailed briefing on company political engagement every two years in alignment with the U.S. election cycle.

We lobby and make political contributions only where allowed under law. All decisions are made without regard for the private personal preferences of the company's officers and executives. All of our employees must also comply with the policies in our written "Code of Business Conduct," The Red Book, which includes Lilly's core values, legal obligations, and global policies, including our "Global Policy on Political Financial Support and Involvement." All individuals who recommend political contributions in the U.S. are trained on our policies on corporate political contributions and LillyPAC contributions.

## Financial Support

Elected officials, no matter what level, have an impact on public policy issues affecting Lilly. In the U.S., we are committed to backing candidates of any party who support public policies that contribute to the health needs of the patient, pharmaceutical innovation, and the interests of our company. In addition to disclosing support for individual candidates and independent expenditures, Lilly will disclose any company contributions to the political process via 527 organizations (e.g., political action committees for individuals or parties). Lilly will only fund other non-candidate expenditures by exception (e.g., certain ballot initiatives) and those contributions will be disclosed. The General Counsel and the Chief Financial Officer, or their designees, must approve all corporate political contributions before they are made.

Our annual "Report of Political Financial Support" provides details of our company's independent-political contributions; the activities of our political action committee, LillyPAC, which is funded solely by eligible employee contributions; and the governance processes for both. The LillyPAC Governing Board (the board) oversees all contributions made by LillyPAC. The board is comprised of 13 U.S.-based employees who represent components throughout the company. LillyPAC meets all disclosure requirements and is audited annually by Ernst and Young.

## Lobbying

Lilly invests in direct lobbying efforts at the federal, state, and local levels to educate policymakers on the specific implications that various legislation may have on the company, our community, and patients. Information on our federal lobbying activities is reported to the U.S. Congress in accordance with the Lobbying Disclosure Act of 1995. Information on our state lobbying activities is reported as required in those states where we engage in lobbying activities.
