

5. Percentage of women applicants and interviewed applicants, STEM versus ALL, for 2005-2006

	ALL	STEM
APPLICANTS	17.2%	15.1%
INTERVIEWED	28.7%	26.4%

Women are interviewed 12 (=29-17) percentage points higher than their representation in candidate pools for all searches. Women are interviewed 11 (=26-15) percentage points higher than their representation in candidate pools for STEM searches. Essentially, the representation of women in STEM faculty interviews is reflective of the candidate pool.
