2017: Best Colleges - Main Survey

Introduction

BEST COLLEGES

Data Collection

U.S. News has begun collecting data for the 2018 edition of Best Colleges. The U.S. News surveys ask about many aspects of your institution that are important to potential college applicants across the country, other educational intuitions, and the public at large.

U.S. News's statistical data collection system has been redesigned. As a result of this redesign, the surveys themselves now have significantly more validation built-in as part of the initial data entry process. This validation is intended to make the entering of incorrect or incomplete data more difficult. Also, new this year, U.S. News has changed the way we do the assessment and verification stage. The assessment and verification processes are now incorporated as separate steps in the data collection process and will no longer be done via paper. U.S. News hopes these improvements will make the data collection process shorter and easier.

There are 3 steps in the U.S. News data collection process:

Step 1: Data - Fill in as much of the survey as possible.

Step 2: Assessment - After filling in your data, navigate to the 'Main Survey Assessment' section. The assessment runs a comparison between your current data and the data submitted last year. The assessment will identify potential errors between the two years of data. For more information please go to the main assessment section.

Step 3: Verification - After reviewing the assessment and fixing any remaining errors, navigate to the section titled 'Verification'. This is where the survey submission takes place. Please take some time to review your survey data one last time. When you are ready, please select the check box, fill out the identification information and hit the red 'Submit Survey' button.

Important Icons

★ The red asterisk located next to a few question numbers indicated that the question is mandatory. If the question is not answered you will be unable to submit the survey. All assessment flags are mandatory and must be addressed.

✗ The red x indicates that you have not filled out the question correctly. There will be a line of text that accompanies the icon letting you know what the exact problem is. Once the issue is corrected, the x will disappear. All failed validations must be fixed before the survey can be submitted.

🛡 The gold shield indicates that the question is used in the Best Colleges rankings calculation.

❓ The question mark indicates a tip on how to answer that particular question.

☑ The checkbox indicates the assessment section of the survey.

⬆ The upward arrow indicates the verification section of the survey. This is where the submission button is located.

Entering Data

To move between fields, you may either click on the field you wish to move to or press the Tab key until you reach that field. To move between individual pages of the survey, click on the "Next" or "Previous" links at the bottom of the page. You may also click on the section links listed in the index on the right-hand side of the screen and go to any page in the survey.

Saving Data

Saving data happens when a few actions are taken. One, you select the 'Next' button at the bottom of the page. Two, you select and navigate to another section in the question index. Three, you hit the 'Save' button at the bottom of a page. If you plan on leaving the survey before completion, please hit the save button before exiting the survey.

Getting Help

If you have questions or encounter problems while you are completing the survey, click the "Help" button on the top right-hand side of the screen. This will direct you to the data collector assigned to your institution.

The Common Data Set

U.S. News is again using questions from the Common Data Set (CDS). The CDS initiative is a collaborative effort among data providers in the higher education community and publishers as represented by the College Board, Thomson Peterson's, and U.S. News & World Report. We hope that this effort to standardize data definitions makes it easier to complete our questionnaire.

For easy reference, all CDS items are noted throughout the Main and Financial Aid surveys. The CDS does not cover any of the questions on the Finance survey. Please note that some of the questions used in the Best Colleges rankings are unique to the U.S. News survey and are not included on the CDS. After you have submitted your CDS, you will have an opportunity to submit information for these questions.

All CDS submissions must be received by May 5th 2017 in order to allow enough time for data entry and processing in-house. Please contact your data collector for more information.

Questions Used in the Best Colleges Ranking

The questions or question areas listed below are the data points that are used in the U.S. News Best Colleges ranking calculations. More details on the U.S. News Best Colleges rankings can be found here:

<https://www.usnews.com/education/best-colleges/articles/how-us-news-calculated-the-rankings>

(<https://www.usnews.com/education/best-colleges/articles/how-us-news-calculated-the-rankings>)

Please note: The primary factor used to determine whether a school will be eligible to be ranked in the 2018 edition of the U.S. News Best Colleges rankings is question 58: Does your institution make use of SAT, ACT, or SAT Subject Test scores in admission decisions for first-time, first-year, degree-seeking applicants?

The answer to this question must be "Yes" in order for a school to be ranked in the 2018 edition of the U.S. News Best Colleges rankings. A school that answers "No" will not be included in the rankings and will be listed as an "Unranked School." Test optional schools should answer question 58 as Yes. Only schools that don't use SAT or ACT test at all in admission should answer as No.

If you have questions on the Best Colleges ranking methodology, which schools qualify to be ranked or unranked, U.S. News publications or how these statistical surveys are used in the rankings, contact Bob Morse, Chief Data Strategist, at rmorse@usnews.com (<mailto:rmorse@usnews.com>).

If you need more details on how the cross-checking or missing data fill-ins will work, contact Bob Morse at rmorse@usnews.com (<mailto:rmorse@usnews.com>).

On behalf of the data collectors, reporters, and editors here at U.S. News and our many appreciative readers, thank you for your time and effort.

Alumni Giving

Undergraduate Alumni Giving: Please enter information on undergraduate alumni giving, as defined below. As noted, *exclude* former students who earned only graduate degrees and undergraduates who didn't graduate from your institution. Additionally, exclude all student giving (e.g., senior class gift) unless you count the entire senior student body in the alumni of record total.

Please follow the standards set by the Council for Aid to Education (CAE) and the Council for Advancement and Support of Education (CASE), and used for reporting to CAE for the Voluntary Support of Education Survey when answering these questions.

What was the number of undergraduate alumni of record at your institution? (*Alumni of record are former full- or part-time students with an undergraduate degree from your institution and for whom you believe you have a valid address or other way to make contact (telephone, email, etc.)*)

Note: The alumni giving data reported to U.S. News should be the same as what was reported to the Council for Aid to Education for undergraduate alumni in its annual Voluntary Support of Education Survey. If you do not break down undergraduate-only giving for the CAE survey, you must still do so for this report.

Faculty

152.)

Please report number of instructional faculty members in each category for Fall 2016. Include faculty who are on your institution's payroll on the census date your institution uses for IPEDS/AAUP. Fall 2015 data is provided for your reference.

The following definition of full-time instructional faculty is used by the American Association of University Professors (AAUP) in its annual Faculty Compensation Survey (the part-time definitions are not used by AAUP). Instructional faculty is defined as those members of the instructional-research staff whose major regular assignment is instruction, including those with released time for research. Use the chart below to determine inclusions and exclusions:

	Full-time	Part-time
(a) instructional faculty in preclinical and clinical medicine, faculty who are not paid (e.g., those who donate their services or are in the military), or research-only faculty, post-doctoral fellows, or pre-doctoral fellows	Exclude	Include only if they teach one or more non-clinical credit courses
(b) administrative officers with titles such as dean of students, librarian, registrar, coach, and the like, even though they may devote part of their time to classroom instruction and may have faculty status	Exclude	Include if they teach one or more non-clinical credit courses
(c) other administrators/staff who teach one or more non-clinical credit courses even though they do not have faculty status	Exclude	Include
(d) undergraduate or graduate students who assist in the instruction of courses, but have titles such as teaching assistant, teaching fellow, and the like	Exclude	Exclude
(e) faculty on sabbatical or leave with pay	Include	Exclude
(f) faculty on leave without pay	Exclude	Exclude
(g) replacement faculty for faculty on sabbatical leave or leave with pay	Exclude	Include

Full-time instructional faculty: employed on a full-time basis for instruction (including those with released time for research)

Part-time instructional faculty: Adjuncts and other instructors being paid solely for part-time classroom instruction. Also includes full-time faculty teaching less than two semesters, three quarters, two trimesters, or two four-month sessions. Employees who are not considered full-time instructional faculty but who teach one or more non-clinical credit courses may be counted as part-time faculty.

Minority faculty: includes faculty who designate themselves as Black or African American; American Indian or Alaska Native; Asian; Native Hawaiian or other Pacific Islander; Two or more races; or Hispanic.

Doctorate: includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and Doctor of Philosophy in any field such as arts, services, education, engineering, business, or public administration. Also includes terminal degrees formerly designated as "first-professional," including dentistry (DDS or DMD), medicine (MD), optometry (OD), osteopathic medicine (DO), pharmacy (DPharm or BPharm), podiatric medicine (DPM), veterinary medicine (DVM), chiropractic (DC or DCM), law (JD).

Terminal Master's degree: a master's degree that is considered the highest degree in a field: example, M. Arch (architecture) and MFA (master of fine arts in art or theatre).

Class Sections

159.) Undergraduate Class Size: In the table below, please use the following definitions to report information about the size of class sections offered in the Fall 2016 term. Fall 2015 data provided for your reference.

Class Sections: A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes. Each class section should be counted only once and should not be duplicated because of course catalog cross-listings.

Programs for Learning Disabled Students

Programs/Services for Learning Disabled Students offered during the 2016-2017 academic year

234.) Check one type that describes your school's LD Program:

Structured/Proactive/Comprehensive program:

Program has separate admissions process and charges fees. Services go well beyond those that are legally mandated and the student is provided with a more structured environment. Low staff/student ratios. Compulsory student attendance. An advisor/advocate is made available to students.

Self-directed/decentralized services:

There is no separate admissions process and eligibility for services must be established by the provision of disability documentation that meets institutional standards. Services may be coordinated through the Disability Services office and are based on need as specified by the documentation. Other offices throughout the campus may also provide services and some services offered are not mandated by laws. Students' progress is not monitored.

Compliance:

Most of the services and accommodations that are provided to students with learning disabilities are those required by law. This type of program can meet the needs of independent students, aware of their needs and able to develop and coordinate their own support systems.
