What is a Pharmacist?

- A pharmacist is a drug therapy expert who works with physicians, dentists and veterinarians to help ensure the effective, safe, and cost-effective use of medications for patients.
- Some pharmacists may also specialize in disease state management, pharmaceutical research, education, or in marketing and sales of particular medications for a company.
- Many in this field work in hospitals, clinics, nursing homes, or community pharmacy settings taking care of the medication needs of patients.
- They are specialists in their knowledge of medications, their appropriate use, and must always be furthering their education in this area since new medications are developed all the time.
Practice Settings

- Community Pharmacy Practice
- Hospital & Ambulatory Clinics
- Managed Care Pharmacy
- Specialty Pharmacy
- Compounding Pharmacy
- Research or Industry
- Academic Pharmacy
- Personalized Medicine
- Specialized Fields of Pharmacy
Pharmacy Programs

- **Doctor of Pharmacy (Pharm. D.)**
  - 2-3 pre-professional years (~80 credits) and 4 professional years (150 credits)
- Pharm D/MBA
- Masters Degree in Pharmaceutical Sciences
- Pharm D/ PhD
- PhD Pharmaceutical Sciences
- Masters Degree in Public Health
What is the Difference Between a Pharm.D and Ph.D.?

- The Ph.D. degree program trains you to conduct basic research in the areas of (among other topics) new drug development and medication delivery systems.

- Strong emphasis is placed on acquisition of research skills, experimental design, data analysis, and analytical techniques in the pharmaceutical sciences.

- The Pharm.D. program trains individuals to become patient care specialists in clinical pharmacy practice related to managing medications in various disease states. That is, the Pharm.D. is a practice-oriented degree, similar to a M.D. (physician) or a D.D.S. (dentist), but whose expertise is the safe and effective use of medications.

- Graduates of the Pharm.D. program become eligible to practice pharmacy upon passing all relevant licensure examinations.
Admission to the Ph.D. in Pharmaceutical Sciences Program

- Students must earn a bachelor degree or higher from an accredited institution of higher education in a science related field.
- Examples include:
  - Chemistry
  - Biochemistry
  - Microbiology
- More details on the Ph.D. program can be found at: https://www.ndsu.edu/pharmacy/graduate_students/
Admission to the Pharm.D. Program

There are two routes for aspiring high school students to pursue admission to NDSU’s Pharm.D. program.

- Option 1: The Early Admission Pathway
- Option 2: The Traditional Admissions Pathway
Early Admission Pathway (EAP) to NDSU’s Pharm.D. Program

- Designed for academically qualified high school students who want an affordable, expedited path to a Pharm.D. degree
- Apply during your senior year in high school
- Conditionally accepted to the Pharm.D. program
  - You have a guaranteed spot in the Pharm.D. program as long as you meet the requirements
  - You must complete all requirements to maintain your spot
- If you meet program requirements, it is a guaranteed 6 year path (saves up to 2 years of time in college)
Early Admission Pathway (EAP) to NDSU’s Pharm.D. Program

- The curriculum is challenging, but progressive and designed specifically to ensure that you are trained well for NDSU’s Pharm.D. program

- First year, standard undergraduate, pre-professional courses
  - Pay standard undergraduate tuition

- Second year, start transition into the professional Pharm.D. program as you complete your pre-professional requirements
  - Pay differential pharmacy tuition

- Next 4 years: Traditional Pharm.D. program
  - Pay differential pharmacy tuition.

NDSU NORTH DAKOTA STATE UNIVERSITY
Admission to the EAP - Pharm.D. Program

- High School Performance
  - ACT/SAT composite scores (Primary Criterion)
  - ACT/SAT sub-section scores (Secondary Criterion)
  - High School GPA (Secondary Criterion)

- Competitive applicants have ACT/SAT composite scores in the top 25% nationally and high school GPAs of 3.50 or higher

- 55-65 students will be accepted into this program annually
Admission to the EAP - Pharm.D. Program

Once accepted, students must:

- Complete all required classes with grades of “C” or higher
- Keep a cumulative GPA above 3.00 (most students have GPAs above 3.40)
- Complete the PCAT at the end of your first year of college with a minimum score threshold
- Complete all Interview Day activities with minimum scores
# Early Admission Pathway (EAP)

## Two Year Pre-Pharmacy Curriculum

### First Year (43 credits)

<table>

$ Students who complete Microbiology 350 and 350L take an additional two credits of coursework. These students would then complete 19 credits during this semester.

(ALL courses must be completed with at least a grade of "C.")
Admission to the Traditional Admission Pathway to the Pharm.D. Program

- Each year, the Pharmacy Admissions Committee will accept 20-30 students through a traditional pathway.

- Beneficial for students
  - with certain family financial situations
  - who switch from other majors on campus to pharmacy
  - who want to earn a minor or study abroad

- Three years of traditional, pre-professional coursework
  - Standard undergraduate tuition, take standard undergraduate courses instead of unique EAP courses.
Traditional Admission Pathway
Three Year Pre-Pharmacy Curriculum

**NDSU ENTRY-LEVEL PHARM. D. PROGRAM**

**Pre-Pharmacy Curriculum**

2018-2019

Three year track. Allows room for a minor of study. (6 Semesters; 104 credits which includes 3 cr. for Engl 110)

*Selected core courses will be used for selection criteria to determine GPA used in calculation for admission to the professional program. These courses must show evidence of letter grade, or other means of demonstrating acceptable competency (i.e. AP – CEEB) and MUST be completed by the end of fall semester prior to the December 31 deadline to apply to the pharmacy program. Remaining courses, which are required and listed in the pre-pharmacy curriculum, MUST be completed by the end of spring term.*

*(ALL courses must be completed with at least a grade of "C.")*
Admission to the Traditional Admission Pathway to the Pharm.D. Program

- Apply during the third undergraduate year

- Selected Grade Point Average (GPA) in college-level, core courses (minimum is 3.0)

- PCAT

- Interview Day Activities
Admission to the Traditional Admission Pathway to the Pharm.D. Program

- Average GPA in select Pre-Pharmacy courses
  (2017: approximately 3.65 for traditional pathway applicants)

- PCAT composite percentile
  (2017: approximately the 65th percentile for traditional pathway applicants)

- Interview
  (Approximately 50 qualified applicants will be selected for interviews each year)
Admission to the Traditional Admission Pathway to the Pharm.D. Program

• Admission applications are available on-line through Pharm-CAS by November 1 each year.

• PharmCAS fees apply

• Additional application fee for the Pharm.D. program is $125.
Pharmacy College Admission Test (PCAT)

- Subtests
  - Biological Processes
  - Quantitative Ability
  - Chemical Processes
  - Writing
- Measures general academic ability and scientific knowledge
- Approximately 200 multiple-choice questions and a writing prompt
- 4 1/2 hours long
- Can be taken more than once
- Highest score is the one considered
- PCATweb.info
- Approximately $210 per test
Demand for Graduates

- Employment rate for graduates (within a few weeks of graduation) for students in the College average 92% according to the 2014 employment report by the NDSU Career Center (http://www.ndsu.edu/fileadmin/career/2014annualreport.pdf).

- U.S. Department of Labor’s Bureau of Labor Statistics job opportunities in pharmacy are expected to grow faster than average.

- *Average Salary: $121,701
  - Salaries will vary depending on whether you practice in a clinical setting, a community setting, a rural community or an urban community.

Starting Now

- Take advantage of opportunities to learn more about science
- Job shadow
- Research colleges and universities
- Visit colleges and universities
  - Specifically ask to meet with the departments that house your programs of interest
  - Compare programs from school to school
Costs of Education

- NDSU remains one of the most affordable places to earn a Pharm.D. degree.
  - In-State Undergraduate Tuition: $7,957
  - In-State Differential Tuition: $15,497
  - Tuition for MN residents is only slightly higher than in-state

- Compare to the University of Minnesota-Twin Cities
  - In-State Undergraduate Tuition: $14,760
  - In-State Differential Tuition: $26,520
Costs of Education

- NDSU remains one of the most affordable places to earn a Pharm.D. degree.
  - In-State Undergraduate Tuition: $7,957
  - In-State Professional Pharm.D. Differential Tuition: $15,497
  - Tuition for MN residents is only slightly higher than in-state

- Compare to South Dakota State University
  - In-State Undergraduate Tuition: $7,440 (varies by credit load)
  - In-State Professional Pharm.D. Differential Tuition & Program Fees:
    - Varies by year
      - ~$18,000 for years 1 – 3
      - ~$26,000 for year 4
How to Apply

➢ For Traditional Pathway applicants, simply apply to study as an undergraduate at NDSU and declare a “pre-pharmacy” major.
  - See: https://www.ndsu.edu/admission/apply
  - Complete PharmCAS application your junior year in college

➢ For Early Admission Pathway applicants, apply to study as an undergraduate at NDSU.
  - See: https://www.ndsu.edu/admission/apply
  - Complete NDSU’s EAP application in PharmCAS as a senior in high school
  - See: http://www.pharmcas.org/
