- [Groundbreaking diabetes research](#)
- [Impact of NDSU's professional advisers](#)
- [Innovative cattle grazing management](#)
- [NDSU keeps our students in state](#)

Thank you for your continued support of North Dakota State University! We're sharing our stories about the transformative impact of NDSU on people and communities in North Dakota. Each excerpt highlights the positive outcomes of your commitment and investment in our university mission.

An NDSU research project using Economic Diversification Research Funds appropriated in the 2023 North Dakota legislative session is looking to revolutionize diabetes patient care. [Read more.](#)

INVESTING IN OUR FUTURE

Funding from the state legislature is focused on NDSU student success with investments in professional advising, an industry best practice for supporting first- and second-year students. [Read more.](#)

“From learning how to register for classes to understanding the numerous resources on campus, advisers are here to assist students throughout their time at NDSU. Advisers also work closely with students to design their plan of study based on the students’ goals, which provides a clear path to achieving their degree and entering the workforce.”

- Becky Bahe, director of the NDSU Career and Advising Center

AGRICULTURAL IMPACT

Researchers at the Central Grasslands Research Extension Center, near Streeter, North Dakota, are testing virtual fencing for cattle, aiming to enhance rancher efficiency and animal grazing. [Read more.](#)

BY THE NUMBERS

NDSU keeps the most North Dakota high school students in the state of any North Dakota University System institution. [More NDSU statistics.](#)
