

NDSU INBRE MONTHLY UPDATE

Year 4/ May 2017

MAY HIGHLIGHTS

INBRE WEBINARS

SURP BEGINS

MATERINAL CHILD HEALTH INSTITUTE

INBRE WEBINARS

The final INBRE webinar was held on May 2, 2017 with Dr. Kalidas Shetty and Dr. Dipayan Sarkar. Dr. Shetty and Dr. Sarkar are current researchers for NDSU and are part of the Global Institute for Food Security and International Agriculture (GIFSIA). Dr. Shetty presented on the Microbiome; he discussed how healthy eating habits can prevent chronic disease, in addition to bringing a wide variety of other health benefits.

Each of the INBRE webinars from this semester are available on our YouTube page at:

Links to the YouTube videos are also available on our website. Please feel free to take a look if you are interested.

SURP BEGINS

The 2017 Summer Undergraduate Research Program (SURP) began on May 21, 2017. The students arrived on Sunday to check into their dorm rooms and started the program with the SURP welcome and orientation on Monday. The morning began with the drum to formally welcome students. Dr. Donald Warne delivered the Keynote presentation on Indigenous STEM. A community welcome from the Office of Multicultural Programs, Native American Commission, and Cultural Planner and Liaison and luncheon followed the keynote. Students finished their orientation to the program by taking a tour of NDSU.
