

Stakeholder: (Concern) A train transporting anhydrous ammonia has derailed near North Dakota State University under the 12th Avenue bridge.		
Key Message 1	Key Message 2	Key Message 3
Anhydrous ammonia spreads quickly in windy conditions	The decision was made to evacuate the vicinity.	Emergency personnel are working on preventing an explosion.
Supporting Fact 1-1	Supporting Fact 2-1	Supporting Fact 3-1
Anhydrous ammonia is a flammable gas.	Two pressure tank cars have been punctured.	Pressure tank cars need to stay away from heat.
Supporting Fact 1-2	Supporting Fact 2-2	Supporting Fact 3-2
The gas is toxic if inhaled.	Residents should be evacuated to a designated safe area.	The gas will explode at 125° F.
Supporting Fact 1-3	Supporting Fact 2-3	Supporting Fact 3-3
The gas is stored under pressure.	Evacuation area needs to have a two-mile radius.	Emergency personnel need to remove the source of ignition.
