

Summer Institute in Computational Social Science

The Department of Communication at North Dakota State University, in partnership with SICSS core sponsors, will bring the inaugural Summer Institute in Computational Social Science–NDSU to Fargo, North Dakota!

The purpose of the Summer Institute is to bring together graduate students, postdoctoral researchers, early-career faculty, and industry practitioners interested in computational social science to learn a variety of topics and skills in this emerging field.

SICSS–NDSU offers:

- Self-paced online lectures to build up skills for the workshop
- In-person workshop June 20–30, 2022
- Discussion of topics on web scraping and APIs, text as data, digital field experiments, algorithmic ethics, big data exploration and preparation, data visualization, natural language processing, semantic network analysis, and topic modeling. Some topics may be subject to change
- Participant-driving workshop with group problem sets, participant-led research projects, faculty drop-in hours, guest talks, research speed dating, and more!

APPLY TODAY

- Applications open to Master students, Ph.D. students, post-doctoral researchers, junior faculty, and industry practitioners
- Deadline for applications: April 10, 2022 23:59pm CST, through this online form: bit.ly/sicss-ndsu
