Status:

Variety Information

Experimental Number:

Proposed Variety Name

Crop

Genus Species

Short Description of the Variety
Additional documents can be uploaded as part of this disclosure in the Documents section below.

Year of Initial Cross

Does this variety contain a biotechnology event?

In this section, please provide details of the variety. This is an opportunity to share key features of the variety. What makes it different and unique.

Intellectual Property Rights

Breeder and Breeder Affiliation

Under 7 USC Chapter 57 Section 2401, the term 'breeder' means the person who directs the the final breeding creating a variety or who discovers and develops a variety. If the actions are conducted by an agent on behalf of a principal, the principal, rather than the agent, shall be considered the breeder.

Is the variety or any component of the variety protected by intellectual property rights (PVP, PBR, patent)?

Include if any materials used in the development of this variety were covered under a Material Transfer Agreement or Academic/Research license. Biotechnology events will be addressed in another question.

Biotechnology Events

Does this variety contain a biotechnology event or was it developed with the use of third party intellectual property?

Research Fees

At least one Inventor (Breeder or Contributor) will accept Research Fees

Kindly confirm.

Inventors

Project Leader

Individual responsible for filling out this form if different than the Breeder identified above.

For purposes of this form Inventors includes both Breeder and Contributors.

Inventors **Please list all the inventors - breeders and additional contributors.**

First Name	MI	Last Name	Email	Significance	Contribution	Role Type	Working For Company	Working For Department
					0.00 %			

NDAES requires the the Plant Sciences Department Chair and the NDAES Director approve PVRF before it is considered complete.

The NDSU Inventor Portal automates the process of collecting signatures of Inventors. Please check the box(es) next to all departments or RECs that need to sign the disclosure to meet the requirements of NDAES. The PVDF with the Inventors signatures will be electronically routed to the identified department(s) / REC(s) to collect the remaining signatures.

Plant Sciences Department Chair

Plant Pathology Department Chair

School of Natural Resource Sciences Director

Other Department or REC

NDAES Director

PVP Application

Plant Variety Protection

Please attach a copy of the PVP application in the Documents section below or provide information about when the PVP application will be ready in the Remarks section below.

The PVP application can be submitted to our office after you submit the disclosure. Please DO include any information readily available.

The information provided to complete this invention reporting form is true, accurate, and complete to the best of my knowledge. I understand that anything less than a full disclosure of the invention described herein may adversely affect my rights as an inventor and may have legal ramifications if it is later determined that I intentionally withheld information from this invention report. I hereby agree to assign and do hereby assign all of my rights in this invention to NDSU, in accordance with NDSU policies, for good and valuable consideration, the receipt of which is hereby acknowledged. I acknowledge and agree that all of my laboratory materials, notebooks, and reports generated while I am an employee and/or student of NDSU remain the property of NDSU. Further, I agree that financial consideration, if any, will be distributed amongst all inventors pursuant to NDSU policy.
