# About GREENPEACE

## Mission Statement:

Greenpeace is a global, independent campaigning organization that uses peaceful protest and creative communication to expose global environmental problems and promote solutions that are essential to a green and peaceful future.

## History:

- In 1971 a group of thoughtful and committed citizens came together to create GreenPeace.
- A handful of determined activists leased a small fishing vessel, called the Phyllis Cormack, and set sail from Vancouver for Amchitka Island in Alaska to protest nuclear testing off the coast.
- Today, we have grown from a small group of dedicated activists to an international organization with offices in more than 50 countries
