

2012-2013 Programs Recap

September 2012

No Program

October 2012

Parliamentary Procedure by Deven Styczyski

-Deven gave a handout and showed a video explaining Parliamentary Procedures. Three most important motions used in each meeting:

- Main Motion – starts with “I Move”
 - Have to take a second
 - Focused discussion
- Amendment – add to or remove from Main Motion – a manageable amount of information
- Amend the Amendment– about specific change – about the original amendment

November 2012

CULE (Core Undergraduate Learning Experience) by Ranelle Ingalls and Char Myhre

- Identified the knowledge, skills, and abilities that our graduates should have when they leave NDSU and begin a process of determining whether our curriculum ensures those outcomes.

December 2012

Print and Copy Services Update by Diane Ness/Becky Kock

Espresso Book Machine/NDSU Bookstore by Jennifer Autumnstar

- Document Publishing/Print Services merged a few years ago. Print and Copy Services’ goal is to provide quality products, at a cost-effective way and in a timely manner. They have a new color digital press which uses a waxy substance instead of toner, it’s much less apt to streak, crack on a crease or bleed. Even if Print and Copy Services can’t provide the service, they have contacts off-campus and will be able to get you a better price than if you contact them yourself
- Jennifer Autumnstar explained how the Espresso Book Machine works and brought some samples of the books that they have bound.

January 2013

OUCH! Stereotypes Hurt by Evie Myers

- Watched a video and had a short discussion afterward.

February 2013

Relay for Life by Laura Dallman

- Short slide show presentation was shown. Event starts on April 26, 2013 at 6pm-6am.

March 2013

Civic Engagement Programs on campus by Matt Skoy

-Community Engagement and what we do with the students at NDSU. His job consists of: Leadership Development; traveling with the students; and engaging with students.

- Changes that have happened in student involvement: About 4 years ago, we had 30,000 student volunteer hours; in 2012 we had 51,123 student volunteer hours
- He could show graphs and numbers, but there is something missing.
 - For example, a student approached Matt after being involved in the Homeless and Hungry program. This student spent his winter break being homeless, staying outside and rooming in the homeless shelter. He would serve meals to other homeless people at the Salvation Army center every noon. One day an older gentlemen came up to him and ridiculed him “that is what is wrong with you kids these days, you volunteer here once and you may bring a few friends with you the next time and then you’re done, you don’t know what it’s really like”. The student told the man that he is also homeless and he sleeps at the Newman center every night and serves lunch at the Salvation Army, and the student wants to “serve him”. The man broke down and told the student he was sorry. This student is changed forever. That cannot be included in the statistics.

April 2013

3D Printing by Ben Bernard

Wellness Center Services by Chris Suriano/Sara Kuhry

- Ben Bernard did a 3D printing demonstration with one of the machines. Told us about the resource and how the architecture students were using the technology.

May 2013

Elections

June 2013
