

2016-17 Legislative Committee Report

The committee was busy this academic year. We tried to keep Staff Senate members and campus employees apprised of what was happening in the 65th Legislative Session. Thank you to Matt Chaussee for helping create a link on the Staff Senate webpage. The link provided valuable information and included: a list of area Representatives and contact information, district area maps, and Bills of interest to state employees. This Legislative session did not turn out well for Higher Education. NDSU took an 18% cut to budgets including loss of personnel.

With the budget shortfall, we will continue to watch actions that effect our campus and the University System.
